TRUEMARK
BIOLABS

Thank you for your order.

Every TrueMark vial is third-party tested for identity and purity. Scan the code to view the certificate of analysis for your lot.

Match the LOT # on your vial label to the certificate.

STORAGE & HANDLING

TRUEMARK BIOLABS
truemarkbiolabs.com

LYOPHILIZED VIALS

- Refrigerate at 2–8 °C (36–46 °F) on arrival; freeze at −20 °C for long-term storage.
- Keep sealed, dry and away from light until use.
- Avoid repeated freeze–thaw cycles.
- Reconstituted material: keep at 2–8 °C.

VERIFY YOUR LOT

Every vial carries a lot number (format **TM-CODE-YYMM-NN**). Its certificate of analysis is one scan away — use the QR code on the front of this card or on the vial label.
